GEN. LEE DENOUNCED
Bitter Attack of the Madrid Impar-
cial on the Consul.
A PROTECTOR OF INSURGENTS.
 Wants Sagasta to Have Him Recalled.
 Spain Anxious to Know the Cause of
 the Assembling of Uncle Sam's
 Fleet at Key West—La Lucha
 Discusses the Situation.

Madrid, March 17.—The Imparcial devotes its leading article to the United States Consul General Fitzhugh Lee. It says that he is a "factor in the Cuban problem to which sufficient attention has not been paid," adding: "In no capital of Europe would a full blown ambassador be allowed to do what this consular agent indulges in with impunity in Cuba. This gentleman lets no chance go by of showing in what quarter lies his sympathies and good will. Does any difficulty arise between his country and Spain, he increases it; does friction arise between the two countries, he does his best to add to it; his reports are always hostile to our country, and very often full of falsehood. The insurgents look upon him as a protector, the Spaniards as an enemy."

"A paper of his own country has hinted, many European papers have stated, that he belongs to the syndicate which wishes to buy up Cuba, and every indication shows the truth of the statement. His malice against our country is so marked that it has been noted even by a New York paper which is in no way predisposed in our favor. It is therefore not surprising that English, French and German papers have frequently asked: 'Why does not Spain request the United States to replace an official who, far from being a bond between the two countries, is an open element of discord and strife?'"

"That is the question we, too, ask. Is our government so timid and frightened that it dare not petition to a government with which it assures it is on friendly terms? If that friendship really existed, the United States would find no difficulty in relieving an official who, far from improving that friendship, does his level best daily to interrupt it. Furthermore, as Lee was sent to Havana by Cleveland, and it is usual to have a clean sweep of functionaries with a new president, McKinley must have plenty of adherents who would admirably suit the post."

CHICAGO HOLOCAUST

Five to Fifteen Lives Lost and Many Maimed.
GOOD WORK OF ELEVATOR BOYS

Six Story Building In Which Over Four Hundred People Were Employed a Mass of Ruins in Twenty Minutes—Three Jump From Windows to Their Death.

Chicago, March 17.—It required just 20 minutes yesterday afternoon for one of the most savage fires Chicago has seen since the famous cold storage warehouse fire on the world's fair grounds in 1893, to take anywhere from five to 15 lives, maimed 30 people, and reduced a 6-story brick building to a pile of blazing timbers, red-hot bricks and twisted iron. The number of dead is still in doubt and probably will not be definitely known till the debris of the building is sufficiently cooled to admit of a search being made for the bodies of those who are undoubtedly in the ruins. This will be two days hence. At least three men are known to be dead: They are:

SAMUEL A. CLARK, bookkeeper for the Olmstead Scientific company, jumped the sixth story.
 MILES A. SMITH, salesman for the same company, jumped from the sixth story.
 EDWARD HINE, cashier for Sweet, Wallach & Co., jumped from window.

The missing, of whom nothing has been learned and most of whom are without question buried in the wreck of the building, number 15. Those more or less seriously injured number 21. The building was six stories high, had a frontage of 58 feet on Wabash avenue and extended back 190 feet to an alley.

Four Hundred People.
 The building was occupied by a number of concerns, some of them employing large numbers of people. It is estimated that 400 people were at work in the building when the fire was discovered. The origin of the fire is in dispute. By some it is said to have been caused by an explosion of colloid in the wallpaper warehouses of Alfred Peats on the third floor, and by others to have been the result of an explosion among some photographic chemicals in the photographic supply house of Sweet, Wallach and company on the sixth floor. Employees of both concerns deny that there was any explosion in their vicinity.

The sound of the explosion threw the inmates of the building into a panic, and on several floors a wild stampede began for the stairways and elevators as the flames shot up the light shaft. To add to the panic the men in charge of the elevators ran their cars up to the top of the building shouting "fire" at every floor. When they reached the top both elevators took on a load of frightened women and started for the bottom. The front elevator was in charge of Harry Gleason, a boy, and the rear one was handled by William St. John, a young man. Both of these kept their heads, showed much coolness and bravery and were instrumental in saving many lives.

Rescued Many Women.
 Gleason made one trip to the seventh floor, carried down a load of women, and although the smoke was rolling through the building in dense clouds he started up again. At the fourth floor he stopped to take on a crowd of girls from the rooms of the National Music company, being assisted in his work by Miss Katherine Carney, the forewoman. A man attempted to force his way into the elevator, but Gleason shoved him back into the hall that the women might have the first chance. The man never came out, and probably met his death in the flames. Gleason landed his load safely.

At the rear St. John did equally good work, but was not able to make more than one trip as the fire swept through that part of the building before it attacked the front. In less than ten minutes of the explosion, all escape of the inmates by the stairs and elevators was cut off. There remained only the windows and the single fire escape, a narrow iron thing not over 18 inches wide. This was quickly covered with a string of people, some on one side, some on the other. As they scrambled down in frantic haste, they trod upon one another's fingers, bumped into one another and progress was slow and difficult for them all.

Many of those who could not reach the fire escape made their way to the front windows, and it was out of these that Clark, Smith and Binz hurled themselves to death.

NATURAL GAS WASTE DECISION
 Bank Cashier Morris on Trial For Alleged Bribery—White Playing Doctor Too Little Children Take Poison and One Is Dead—\$50,000 For a Husband—Accounts Short.

Ellettsville, Ind., March 17.—This place is excited over a sensational shooting in which James E. Thomas, sergeant in the regular army, was wounded. Thomas had been keeping company with Ola Berry, a sister of Joseph Berry, who objected, and told Thomas he would shoot him if he did not quit calling on the girl. Thomas disobeyed the warning and had just left the young lady's home, when he was shot by some one in ambush, a load of shot lodging in his thigh. Thomas has had Berry arrested charging him with attempted murder. Thomas belongs to a regiment stationed at Ithaca, N. Y., and is home on a furlough.

DECISION AFFIRMED.
 Supreme Court Upholds Another Natural Gas Law.
 Indianapolis, March 17.—The supreme court has affirmed the decision of the lower court in the case of the Ohio Oil company against the state. Madison county recovered a judgment for \$500 as penalties and attorneys' fees on account of the company having suffered gas to escape from two of its wells for more than 10 days after their completion.

The oil company resisted on the ground that the statute imposing a penalty of \$200 with attorney fees, for each 10 days that gas should be allowed to escape from any well, was unconstitutional.

The Modern Agnostic.
 We look at our churches with their congregations, growing in numbers and dwindling in faith, says H. G. Chapman in the Atlantic, and we ask ourselves: In all these buildings, cheap or costly, what real prayers rise, and of those that rise do any get above the roof? What God hears them and has there ever been an answered prayer? We look at the face of the dead and repeat a burial service. If after the manner of men I have fought with beasts at Ephesus, what advantage has it me if the dead rise not? And as we say the words we ask ourselves, "Do the dead rise?" And if any one is found who believes these things he knows that there is another at his elbow who believes them not a whit or an atom, and these two can hit on no universe that shall satisfy both, nor can one be poet to the other.

GEN. LEE DENOUNCED
Bitter Attack of the Madrid Impar-
cial on the Consul.
A PROTECTOR OF INSURGENTS.
Wants Sagasta to Have Him Recalled.
Spain Aroused to Know the Cause of
the Assembling of Uncle Sam's
Fleet at Key West—La Lucha
Discusses the Situation.

Madrid, March 17.—The Imparcial
devotes its leading article to United States
Consul General Fitzhugh Lee. It says
that he is a "factor in the Cuban prob-
lem to which sufficient attention has
not been paid," adding: "In no capital
of Europe would a full blown ambassa-
dor be allowed to do what this consular
agent indulges in with impunity in
Cuba. This gentleman lets no chance
go by of showing in what quarter lies
his sympathies and good will. Does
any difficulty arise between his country
and Spain, he increases it; does friction
arise between the two countries, he does
his best to add to it; his reports are al-
ways hostile to our country, and very
often full of falsehood. The insurgents
look upon him as a protector, the Span-
iards as an enemy.

"A paper of his own country has
hinted, many European papers have
stated, that he belongs to the syndicate
which wishes to buy up Cuba, and every
indication shows the truth of the state-
ment. His malevolence against our
country is so marked that it has been
noted even by a New York paper which
is in no way predisposed in our favor.
It is therefore not surprising that En-
glish, French and German papers have
frequently asked: 'Why does not Spain
request the United States replace an of-
ficial who, far from being a bond be-
tween the two countries, is an open ele-
ment of discord and strife?'

"That is the question we, too, ask. Is
our government so timid and frighten-
ed that it dare not petition to a gov-
ernment with which it assumes it is on
friendly terms? If that friendship really
exists, the United States would find
no difficulty in relieving an official who,
far from improving that friendship,
does his level best daily to interrupt it.
Furthermore, as Lee was sent to Ha-
vana by Cleveland, and it is usual to
have a clean sweep of functionaries
with a new president, McKinley must
have plenty of adherents who would ad-
mirably suit the post."

SPAIN ASKS QUESTIONS.
Desires to Know Cause of Mobilizing
the Fleet at Key West.
Washington, March 17.—The main
developments in the Spanish situation
are the definite representations sub-
mitted by the Spanish government to the
state department concerning the as-
sembling of a large fleet of American
warships at Key West, the war prepara-
tions and the influence which these
might have on the approaching elections
in Cuba.

While these representations cannot
properly be regarded as a protest against
the attitude and acts of the United
States government, they may unques-
tionably be set down as a remonstrance
calculated to have an effect in European
court circles. Not, however, being a
technical protest, the statement has not
called for any official rejoinder on the
part of the state department, for it is
lacking in tangible accusations; being
rather an argumentative presentation
of alleged Spanish grievances.

It is stated unequivocally that the
Montgomery, to be relieved by the Fern,
was not withdrawn from Havana owing
to an suggestion from Spanish sources
that her presence is not desired. It was
the announced intention of Secretary
Long when the cruiser was sent to Ha-

All the poetry, all the
romance, all that is ideal
in the wide, wide world,
is bound up in that one
word: "Mother."
A woman's greatest
happiness, her greatest
duty and her greatest
privilege is to become
the mother of a
healthy, happy
child. Untold
thousands of
women fall short of
this because of
weakness and dis-
ease of their wom-
anly-selves. Either they live childless
lives, or for a brief spell are the mothers
of puny, sickly children that bring them
only pain and sorrow.
The woman who suffers from weakness
and disease of the distinctly feminine
organs is certain to become an invalid. No
woman can afford to destroy her own
make-up once bright eyes dull and the ef-
fective brain sluggish, and transform a vi-
cious woman into a weak, sickly, invalid.
This is all wrong. It is all unnecessary.
Dr. Pierce's Favorite Prescription is a mar-
velous medicine for alling women. It acts
directly on the delicate and important
organs that bear the burdens of mater-
nity and makes them strong and healthy.
It allays inflammation, heals ulceration,
softens pain and tones and builds up the
nerves. It banishes the discomforts of the
expectant months and makes baby's com-
ing easy and almost painless. It guarantees
the little new-comer's health and an ample
supply of nourishment. Thousands of
women have tested this marvelous medi-
cine. An honest dealer will not endeavor to
substitute some inferior preparation for the
sake of an extra little selfish profit.

"I took Dr. Pierce's Favorite Prescription
previous to confinement," writes Mrs. Cora
Harper, of Texas, "and never did so well in my life. It is only two
weeks and I am able to do my work."

In most healthy families you will find

CHICAGO HOLOCAUST

Five to Fifteen Lives Lost and
Many Maimed.

GOOD WORK OF ELEVATOR BOYS
Six Story Building in Which Over Four
Hundred People Were Employed a
Mass of Ruins in Twenty Min-
utes—Three Jump From Win-
dows to Their Death.

Chicago, March 17.—It required just
20 minutes yesterday afternoon for one
of the most savage fires Chicago has
seen since the famous cold storage ware-
house fire on the world's fair grounds
in 1893, to take anywhere from five to
15 lives, maimed 30 people, and reduced
a 6-story brick building to a pile of
blazing timbers, red-hot bricks and
twisted iron. The number of dead is
still in doubt and probably will not be
definitely known till the debris of the
building is sufficiently cooled to admit
of a search being made for the bodies of
those who are undoubtedly in the ruins.
This will be two days hence. At least
three men are known to be dead: They are:

SAMUEL A. CLARK, bookkeeper for the
Olmstead Scientific company, jumped
the sixth story.
MILES A. SMITH, salesman for the same
company, jumped from the sixth story.
EDWARD HINE, cashier for Sweet, Wal-
lach & Co., jumped from window.

The missing, of whom nothing has
been learned and most of whom are
without question buried in the wreck
of the building, number 21. Those more
or less seriously injured number 21.
The building was six stories high, had
a frontage of 58 feet on Wabash avenue
and extended back 160 feet to an alley.

Four Hundred People.
The building was occupied by a num-
ber of concerns, some of them employ-
ing large numbers of people. It is esti-
mated that 400 people were at work in
the building when the fire was discov-
ered. The origin of the fire is in dis-
pute. By some it is said to have been
caused by an explosion of colloid in the
wallpaper warehouses of Alfred
Peats on the third floor, and by others
to have been the result of an explosion
among some photographic chemicals in
the photographic supply house of Sweet,
Wallach and company on the sixth
floor. Employees of both concerns deny
that there was any explosion in their
vicinity.

The sound of the explosion threw the
inmates of the building into a panic,
and on several floors a wild stampede
began for the stairways and elevators as
the flames shot up the light shaft. To
add to the panic the men in charge of
the elevators ran their cars up to the
top of the building shouting "fire" at
every floor. When they reached the
top both elevators took on a load of
frightened women and started for the
bottom. The front elevator was in
charge of Harry Gleason, a boy, and the
rear one was handled by William St.
John, a young man. Both of these kept
their heads, showed much coolness and
bravery and were instrumental in sav-
ing many lives.

Rescued Many Women.
Gleason made one trip to the seventh
floor, carried down a load of women,
and although the smoke was rolling
through the building in dense clouds he
started up again. At the fourth floor
he stopped to take on a crowd of girls
from the rooms of the National Music
company, being assisted in his work by
Miss Katherine Carney, the forewoman.
A man attempted to force his way into
the elevator, but Gleason shoved him
back into the hall that the women
might have the first chance. The man
never came out, and probably met his
death in the flames. Gleason landed his
load safely.

At the rear St. John did equally good
work, but was not able to make more
than one trip as the fire swept through
that part of the building before it at-
tacked the front. In less than ten min-
utes of the explosion, all escape of the
inmates by the stairs and elevators was
cut off. There remained only the win-
dows and the single fire escape, a nar-
row iron thing not over 18 inches wide.
This was quickly covered with a string
of people, some on one side, some on the
other. As they scrambled down in fric-
tion haste, they tread upon one another's
fingers, bumped into one another and
progress was slow and difficult for them
all.

Many of those who could not reach
the fire escape made their way to the
front windows, and it was out of these
that Clark, Smith and Bluz hurried
themselves to death.

BRIBERY CHARGED.
Mayor Graham of Lincoln, Neb., In-
dicted and Arrested.
Lincoln, Neb., March 17.—Mayor
Frank A. Graham and former Excise-
man Harvey B. Vail have been arrested
on indictments charging them with re-
ceiving bribes. The indictments are the
result of evidence given before con-
stitutional investigating committee, city em-
ployees testifying that they were obliged
to pay for positions. Both men were
released on bail.

KENTUCKY POPULISTS.
Mass Convention at Louisville to Re-
organize the Party.
Louisville, March 17.—At Music hall
yesterday afternoon 400 Populists as-
sembled for the mass convention to re-
organize the party in Kentucky. State
Chairman Bate declared that the salva-
tion of the party lay in the middle-of-
the-road populism.

Tom Watson Nominated.

son has been nominated for governor by
the Populists.

What North Carolina Will Do.
Raleigh, N. C., March 17.—Governor
Russell has received a message from
President McKinley asking how many
troops the state could furnish in case of
hostilities. The reply of the governor
was 245,000.

REMARKABLE BILL.
Stringent Cigarette Law Passed By Ken-
tucky Legislature.
Louisville, March 17.—Governor
Bradley has for consideration a most re-
markable product of legislation. It is a
bill providing that it shall be unlawful
for any person to sell, barter, loan, give,
make, fabricate, or manufacture, or to
have on his premises, in his possession,
or under his control, a cigarette; that it
shall be unlawful for any person to have
on his premises, in his possession, or un-
der his control, any substance or mate-
rial out of which any part of such cigar-
ette can be made; with the knowledge
or purpose that at any time such sub-
stance or material may become a factor
in such cigarette. Any person who
shall violate the law or evade it shall be
fined not less than \$10 nor more than
\$100, or be imprisoned in the county jail
for not less than five nor more than 30
days, or both. It is said the governor
may permit it to become a law.

BURLINGAME JOHNSON.
United States Consul at Amoy Writes on
the Chinese Situation.
San Francisco, March 17.—A Burlingame
Johnson, United States consul at
Amoy, China, has written a paper to
The Bulletin, in which he makes some
very startling statements regarding the
condition of affairs in China. He prac-
tically accuses Germany of grabbing a
large territory in China upon a trivial
pretext, and tells of the Russian occu-
pation of Port Arthur and England's
protest. He ridicules Germany's em-
peror and his brother, Prince Henry,
and in relating the circumstances of
England's objection to Russia's occupa-
tion of Port Arthur says: "It has been
so long since England fought a nation
whose men wore pantaloons, that the
sight of an anticipated enemy that is
not dressed in breech cloth, tunic or tur-
ban, causes palpitation of the heart."
Mr. Johnson's home is at Grand Junc-
tion, Colo.

Husband—Accounts Short.

Ellettsville, Ind., March 17.—This
place is excited over a sensational shoot-
ing in which James E. Thomas, ser-
gent in the regular army, was wounded.
Thomas had been keeping company
with Ola Berry, a sister of Joseph Berry,
who objected, and told Thomas he
would shoot him if he did not quit call-
ing on the girl. Thomas disobeyed the
warning and had just left the young
lady's home, when he was shot by some
one in ambush, a load of shot lodging
in his thigh. Thomas has had Berry
arrested charging him with attempted
murder. Thomas belongs to a regiment
stationed at Ithaca, N. Y., and is home
on a furlough.

DECISION AFFIRMED.
Supreme Court Upholds Another Natural
Gas Law.
Indianapolis, March 17.—The supreme
court has affirmed the decision of the
lower court in the case of the Ohio Oil
company against the state. Madison
county recovered a judgment for \$500
as penalties and attorneys' fees on ac-
count of the company having suffered
gas to escape from two of its wells for
more than 10 days after their comple-
tion.

The oil company resisted on the
ground that the statute imposing a
penalty of \$200 with attorney fees, for
each 10 days that gas should be allowed
to escape from any well, was unconsti-
tutional.

\$20,000 FOR A HUSBAND.
Mrs. T. Arthur Tomlinson Gets Judgment
Against the Iron Mountain Road.
Indianapolis, March 17.—Attorney
James B. Curtis has received word from
Little Rock that a verdict for \$50,000

well known in this city.

S. Morris, cashier of the First National

an indictment charging him with bribe-
ry. It is charged that he gave \$50 to
County Commissioner Charles G. Beatty
to induce him to award a loan of \$55,-
000 to Morris and Foebel last July.

ped operations in this section. Oil men
have played crope on derricks and pump
houses.

covered in time to prevent the east-
bound passenger train from colliding
therewith.

Colonel Strikes Gas.
Lexington, Ky., March 17.—Colonel
Matt Simpson, the well known turfman,
while drilling for water on his farm, 12
miles from this city, struck natural gas
at a depth of 98 feet. Mr. Simpson
lighted the well last Saturday and it has
since been a flaring flame of 15 feet in
height. The flow grows stronger each
day. If experts decide that it is more
than a pocket, Mr. Simpson will pipe
gas to this city for domestic purposes.

New York, March 17.—General Sam-
uel Thomas, president of the Chicago,
Indianapolis and Louisville, or Monon

apolis to the effect that he is about to
resign the presidency of the road is un-

The simplest public railroad now op-
erated is thought to be one between
Atami and Odawara, in Japan. It is a
narrow gauge road and is run by man
power. The cars have seats for four
persons each, who sit back to back. A
train consists of two or three cars and is
drawn uphill by half a dozen coolies.

The Modern Agnostic.
We look at our churches with their
congregations, growing in numbers and
dwinding in faith, says H. G. Chap-
man in The Atlantic, and we ask our-
selves: In all these buildings, cheap or
costly, what real prayers rise, and of
those that rise do they get above the
roof? What God hears them and has
there ever been an answered prayer? We
look at the face of the dead and repeat
a burial service. If after the manner of
men I have fought with beasts at Ephe-
sus, what advantage it me if the dead
rise not? And as we say the words we
ask ourselves, "Do the dead rise?" And
if any one is found who believes these
things he knows that there is another
at his elbow who believes them not a
whit or an atom, and these two can hit
on no universe that shall satisfy both,
nor can one be poet to the other.

Still Explaining.

When Captain Balsey spoke at the Loyal Legion banquet at Indianapolis recently, the Journal reporter referred to our mayor as a member of the 26th Indiana, when in fact he was a member of the 27th. The captain has received numerous letters from members of both the 26th and 27th after they had read the Journal's report and has written just as many in explanation. Capt. Balsey places blame on the reporter, who is a member of the Loyal Legion, but who did his writing that night after the banquet was too far along.

Marshall, member of the democratic central committee, to test the law. The suit is being pushed with the hope of getting a decision from the supreme court by June 1. In some places candidates for these offices have already been nominated.

St. Patrick's Day.

This is St. Patrick's day, as evinced by the bits of green being worn so conspicuously by so many people. This is done in commemoration of St. Patrick, the apostle and patron saint of Ireland. St. Patrick lived about 1400 years ago. He was one of the first to introduce Christianity in Ireland and before his death had converted almost the whole island to the faith. Legend has it that he rid Ireland of snakes and frogs.

Report at Once.

An effort is being made to get a special train from Columbus to Seymour next Tuesday night to bring back those who desire to go from here to witness the presentation of the "Old Homestead." The special train will depend on the number who desire to go. Any body who will go will please report the same at Cox's Pharmacy or Saltmarsh's office at once.

Telephone Talk.

The Azalia branch of the rural telephone line of Bartholomew county is being extended from Azalia to Jonesville. There is a probability that it will be extended on to Seymour, as there are many patrons of the line that want communication with this city. Such an arrangement would be of mutual advantage.

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of constipation and sick headache. For Malarial and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c per box. Sold by W. F. Peter, druggist.

Band Concert.

The 4th Regiment Band will give a concert at the opera house, April 18, which will be the musical event of the season. The band boys are under good training and are practicing almost every night under the leadership of Prof. Johnson. They will give a first class entertainment and are worthy the support of our citizens. A superior band is of great value to any community. Seymour has the material second to none in the state.

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonates) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work for we all use the same kind of printing paper, and tone in the same kind of gold and silver platinum bath. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet glossy cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

Still Explaining.

When Captain Balsey spoke at the Loyal Legion banquet at Indianapolis recently, the Journal reporter referred to our mayor as a member of the 26th Indiana, when in fact he was a member of the 27th. The captain has received numerous letters from members of both the 26th and 27th after they had read the Journal's report and has written just as many in explanation. Capt. Balsey places blame on the reporter, who is a member of the Loyal Legion, but who did his writing that night after the banquet was too far along.

Gas Company Delegation.

A delegation of representatives of the gas companies called upon the governor yesterday to reach an understanding as to the prosecution of the injunction suits to be instituted by the state against those who waste natural gas. At the meeting of the gas men and manufacturers at Indianapolis a few days ago it was decided to bear the expense of the suits and arrangements were made with a surety company to go on the bonds. The governor informed the gas men that the law would be rigorously enforced.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. Tired people are tired because they have exhausted their strength. The only way for them to get strong is to eat proper food.

But eating is not all. Strength comes from food after digestion. Digestion is made easy with Shaker Digestive Cordial.

People who get too tired, die. Life is strength. Food is the maker of strength. Food is not food until it is digested.

Tired, pale, thin, exhausted, sick sufferers from indigestion, can be cured by the use of Shaker Digestive Cordial. It will revive their spent energies, refresh and invigorate them, create new courage, endurance and strength, all by helping their stomachs to digest their food.

It aids nature, and this is the best of it. It gives immediate relief and, with perseverance, permanently cures.

THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist Will Send Free, to the Afflicted, Three Bottles of His Newly Discovered Remedy to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the SEYMOUR REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 98 Pine Street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the SEYMOUR REPUBLICAN.

The Surprise of All

James Jones, of the drug firm of Jones & Son, Cowdoy, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with LaGrippe, and her case grew so serious that physicians at Cowden and could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half a dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, colds is guaranteed to do this good work. Try it. Free trials bottles at W. F. Peter Drug Store.

OUTINGS IN CALIFORNIA.

The Grandest Country Under the Sun for Outdoor Pastimes.

When one desires an "outing" for health for the enjoyment of the beauty and grandeur and of scenery, or for sporting, he can more than satisfy himself in California. During more than eight months of the year open air life is entirely agreeable, and except for exclusion even a tent is unnecessary. No spots there are "postponed on account of the weather," and Mother Nature holds out a welcoming hand to any one who will commune with her.

It is not strange then that all California takes an outing. The residents of the valleys seek the coast for its ocean breezes and for bathing, boating and fishing that they may enjoy, or they go to the high Sierras for the cool, invigorating mountain air.

The sportsman can also have his fill. If he is a disciple of Izak Walton he will find stream and lake and sea yielding him an ample reward for his skillful efforts. Game is also abundant. The deer, the bear—a grizzly if wanted—and smaller game swarm in the woodlands, and the man who cannot satisfy himself with an outing in California must be hard indeed to please.

Long limit low rate tickets are sold to California via any of the Southern Pacific Company's three routes: Shasta, Ogden or Sunset, and may be purchased to read in one direction via any of these returning the same or either of the others. For information regarding rates and various routes to California call upon or address any agent of the Southern Pacific Company, or W. G. Neimeyer, Gen'l. Western Agent, 238 Clark St., Chicago, Ill.

RAKED UP HIS LATIN.

And Succeeded in Unearthing Terms That Started the Waiter.

A western lawyer went into the Planters' cafe a few days ago. He had not always lived in the far west and in his college days in the east was well enough acquainted with the French bills of fare of swell New York restaurants. But out in his new home he had forgotten about soup au pot gras and pomme de terre a la duchesse. The fact that he could not read some of the delicacies on the menu exasperated him, and he proceeded to have fun with the waiter.

"Nothing here that I'd care for," said he to the clanking attendant.

"We can serve you anything for dinner, sir," said the waiter, confident that he could please his customer before he got through with him.

"Have you sine qua non?"

The waiter stared.

"No-o-o, sir," he answered.

"What about bonmots? Have you any?"

"No, sir."

"Then let me have some nice ignis fatuus. That's good at this time of the year."

"We haven't got it."

"Bring me some tempus fugit then."

"That's out, too, sir."

"You must have a pluribus unum."

"This time the waiter looked bright."

"I've heard them speak about it in the kitchen. I'll go and see."

He came back empty handed and dejected.

"We haven't got it," he stammered.

"Strange that I can't get any of these reasonable things. Try once more and find out if they have per bone publico."

"I'll call Mr. Weaver," said the waiter, almost crazy by this time.

"Perhaps he can tell what you want."

The guest from the west caught him by the coat tails.

"All right," said he, "and in the meantime bring me some roast beef and fried potatoes."

"We have it!" yelled the waiter in his delight at hearing of something that was obtainable, and he flew off to the kitchen and came back with the beef and the potatoes and Landlord Weaver in the wake.

The attorney and the hotel man had a good laugh at the expense of the unfortunate waiter, who confided to the chef in the kitchen that he had struck a man who must have been eating at Delmonico's all his life.—St. Louis Republic.

THE BLOODY BATTLE.

Tewkesbury, where a famous battle was fought during the war of the roses, is in Gloucestershire, at the confluence of the Avon and the Severn and 180 miles from London. The battle was fought on the Bloody meadow, just outside the modern town, and according to local tradition, one night in every year on the anniversary of the conflict the adherents of the white and red roses meet and fight the battle over again.

Among the Vosges peasant children born at the new moon are supposed to have tongues better hung than others, while those born at the last quarter have better reasoning powers. A daughter born during the waxing moon is always precocious.

A doctor asserts that the growth of children takes place entirely when they are asleep.

Save a Licking.

The butcher's boy who had called to deliver a parcel had thoughtlessly left the garden gate open, and the 7-year-old ruler of the house called after him: "Here! Come back and shut that gate!"

The butcher's boy stopped, but showed no inclination to obey the command. "I don't have to!" he shouted defiantly.

"Yes, you do," insisted the 7-year-old. "You come right back and shut it now, or somebody's going to get the worst licking he ever had."

The butcher's boy came running back, full of fight.

"He is, eh?" he said. "Well, who's going to lick 'im, eh?"

"Mother is," calmly remarked the youngster. "If you leave that gate open, I'll be certain to go out into the street. Mother'll see me, and I'll get licked. Shut it tight, please, so I can't get out."

And the butcher's boy did.—Chicago Times-Herald.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways.

The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb troubles.

Some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists 50 cents and one dollar. You may have a sample bottle and a pamphlet, both sent free by mail, upon receipt of three two-cent stamp to cover cost of postage on the bottle. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its plainness of this offer.

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it cures that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by C. W. Milhous.

THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist, Will Send Free, to the Afflicted, Three 10 Cents of His Newly Discovered Remedy to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the Seymour REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 98 Pine Street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the Seymour REPUBLICAN.

OUTINGS IN CALIFORNIA.

The Grandest Country Under the Sun for Outdoor Pastimes

When one desires an "outing" for health for the enjoyment of the beauty and grandeur and of scenery, or for sporting, he can more than satisfy himself in California. During more than eight months of the year open air life is entirely agreeable, and except for exclusion even a tent is unnecessary. No spots there are "postponed on account of the weather," and Mother Nature holds out a welcoming hand to any one who will commune with her.

It is not strange then that "all California takes an outing." The residents of the valleys seek the coast for its ocean breezes and for bathing, loafing and fishing that they may enjoy, or they go to the high Sierras for the cool, invigorating mountain air.

The sportsman can also have his fill. If he is a disciple of Izak Walton he will find stream and lake and sea yielding him an ample reward for his skillful efforts. Game is also abundant. The deer, the bear—a grizzly if wanted—and smaller game swarm in the woodlands, and the man who cannot satisfy himself with an outing in California, must be hard indeed to please.

Long limit low rate tickets are sold to California via any of the Southern Pacific Company's three routes: Shasta, Ogden or Sunset, and may be purchased to read in one direction via any of these returning the same or either of the others.

For information regarding rates and various routes to California call upon or address any agent of the Southern Pacific Company, or W. G. Neimeyer, Gen'l. Western Agent, 238 Clark St., Chicago, Ill.

RAKED UP HIS LATIN.

And Succeeded in Unearthing Terms That Started the Waiter.

A western lawyer went into the Planter's cafe a few days ago. He had not always lived in the far west and in his college days in the east was well enough acquainted with the French bills of fare of well known New York restaurants. But out in his new home he had forgotten about soup au pot gras and pomme de terre a la duchesse. The fact that he could not read some of the delicacies on the menu exasperated him, and he proceeded to have fun with the waiter.

"Nothing here that I'd care for," said he to the waiter who came attendant.

"We can serve you anything for dinner, sir," said the waiter, confident that he could please his customer before he got through with him.

"Have you sine qua non?" The waiter stared.

"No-o-o, sir," he answered.

"What about bonimots? Have you any?"

"No, sir."

"Then let me have some nice ignis fatuus. That's good at this time of the year."

"We haven't got it."

"Bring me some tempus fugit then."

"That's out, too, sir."

"You must have a pluribus unum."

"This time the waiter looked bright. 'I've heard them speak about it in the kitchen. I'll go and see.'"

He came back empty handed and dejected. "We haven't got it," he stammered.

"Strange that I can't get any of these reasonable things. Try once more and find out if they have per bono publico."

"I'll call Mr. Weaver," said the waiter, almost crazy by this time. "Perhaps he can tell what you want."

The guest from the west caught him by the coat tails.

"All right," said he, "and in the meantime bring me some roast beef and fried potatoes."

"We have it!" yelled the waiter in his delight at hearing of something that was obtainable, and he flew off to the kitchen and came back with the beef and the potatoes and Landlord Weaver in the wake.

The patriotic people of the United States regardless of party affiliation stand ready to support the administration in dealing with the Cuban question. Whether it be war or peace the honor and dignity of the nation will be sustained.

Last week the Brownstown Banner spoke of the petition for a county seat election as, "outrageous," this week it says it was a "ridiculous petition." Other adjectives will be substituted for these if the occasion should demand a change.

It is possible for much good to come from the meeting of the assessors at Indianapolis. Their duties are of the greatest importance to the people. To properly schedule values is no easy task, nor one that can be done without much thought. It is of the utmost importance to the taxpayers that the assessors do their work well.

In discussing the petition for removal of the county seat the organ of the anti-removalists appeals to passion and sentiment just as it has been in the habit of doing. The removal of the county seat of Jackson county is a plain business proposition. The majority of the taxpayers of the county are decidedly in favor of the removal. They believe that such a change would be in keeping with the progress the county has made and be of decided advantage to the county generally. Not only a majority of the people favor removal but the men who represent about three-fourths of the property interests in the county want the change made. These things being true it occurs that even the anti-removalists would approach the question from a higher plane than they have done. Certainly they realize that the removal will be made.

Peter Baker and Roddy Cain, of near Slate, came up to the city today and favored the Republican office with a pleasant business and social call.

G. W. Cox, the famous stone man of Holton, was in the city today and sold our people a fine lot of nice building stone. Mr. Cox is doing a large business having over forty men in his employ getting out and dressing stone.

The funeral of Dr. and Mrs. J. M. Shield's babe will take place from the family residence tomorrow (Friday) morning at 10 o'clock. Religious services will be conducted by Rev. J. W. Clevenger. Interment in Riverview cemetery.

Neck Wear.

Never in the history of man or woman have there been so many and such fascinating things for the neck displayed in the shops as at the present time. The woman who cannot find something becoming amongst the variety must be exceedingly plain. All during the winter there have been ties of bright ribbon shown, long enough to go once around the neck and tie in front in a slip-knot. These have fringe at the ends, and are very effective; but such quantities of them are to be seen now that it is a question whether they will be among the smart things during the summer. However, they are extremely pretty, and, as a rule, are not expensive. The bright Roman colors are very much used, as are the figured ribbons and some plain taffetas with pretty edges.—Harper's Bazar.

Don't for Dyspeptics.

Those who are suffering from indigestion cannot fail to be benefited if they don't eat: Boiled coffee, boiled tea all sweets, fried foods, white bread crackers, cakes, and fruits, pork in all forms, veal, turkey, duck, cooked cabbage, beets, green corn, potatoes, pickles, spiced foods, gelatine desserts, red or dark fish, salt foods, all the crustaceans, clam, raw or fried oysters, and refrain from drinking iced water, acid drinks, flavored soda water.—Mrs. S. T. Rorer in March Ladies' Home Journal.

Finely Equipped.

The New Lynn bar which was opened for business yesterday is finely equipped in every respect. The fixtures were designed especially for the room and in accordance with the excellent taste of Mr. Wallick. Everything is new and of the latest pattern. The ice box which is an important adjunct, is as complete and as perfect as is made, and everything else is in keeping with this. The stock of goods is the best, nothing but the leading brands kept on hand. Mr. Wallick has taken great pains to perfectly equip the place.

Field's Minstrel Tonight.

A. G. Field has been getting material for an exhibition for the past two years. All his plans have matured and his big colored minstrel company will be at the Opera House tonight. 40 genuine southern negroes will depict the activities of negro life on the old plantation. A negro brass band and orchestra, military company in drills are a few of the many features.

TALL BUILDINGS.

The Skyscraper Considered as a Device for Saving Labor.

In the tall building it is emphatically "a condition, not a theory," that confronts us. The many stories of certain economic factors which have operated in the United States have been the result of the architects, and more intensely in the United States than elsewhere. This is what has made it so peculiarly an American product. Of these economic factors the cost of land, so commonly alleged as the controlling one, has really been the least important. Land in parts of Paris and London is as costly as in New York and Chicago, but the 15 story office building has never come into vogue there, while, on the other hand, buildings of 10 or 12 stories are not uncommon in American cities of the second and third rank, where land is relatively cheap. The cause causes of the skyscraper monstrosity is to be sought in the drive and hurry of American business life, and in the accompanying American propensity to save time and labor. The skyscraper is a huge labor saving and time saving device.

Each building is almost a complete city, often comprising within its walls banks and insurance offices, postoffice and telegraph office, business exchanges, restaurants, clubrooms and shops. The business man can provide himself with clothes, shoes, cigars, stationery and bath; receive and dispatch his mail and his telegrams; speculate on 'change, consult his lawyer and his architect in their offices and transact his own business—all without leaving the building in which his office is located. The express elevator which shoots him up to the sixteenth story or drops him with breathless speed to the basement is a product of this same American haste and economy, and without the elevator the tall office building would be an impossibility. It is the triumphant success of the skyscraper as a time saving invention which has made it so conspicuous and insistent an element in our American architecture.—Engineering Magazine.

No morphine or opium in Dr. Miles' Pain Expeller. Cures All Pains. "One cent a dose."

Priceless Pain

"If a price can be placed on pain, 'Mother's Friend' is worth its weight in gold as an alleviator. My wife suffered more in ten minutes with either of her other two children than she did all together with her last, having previously used four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a mother," says a customer.

This writes Henderson Dale, Druggist, of Carmi, Ill., to the Bradford Regulator Company, of Atlanta, Ga., the proprietors and manufacturers of "Mother's Friend." This successful remedy is not one of the many internal medicines advertised to do unreasonable things, but a scientifically prepared liniment especially effective in adding strength and elasticity to those parts of woman's organism which bear the severest strains of childbirth.

The liniment may be used at any and all times during pregnancy up to the very hour of confinement. The earlier it is begun, and the longer used, the more perfect will be the result, but it has been used during the last month only with great benefit and success.

It not only shortens labor and lessens the pain attending it, but greatly diminishes the danger to life of both mother and child, and leaves the mother in a condition more favorable to speedy recovery.

"Mother's Friend" is sold by druggists at \$1.00, or sent by express on receipt of price.

Natural Barometers Which Foretell Storms in Wisconsin.

A freak of nature which is attracting considerable attention is a series of blowing or "whistling" wells located in the northern part of the town of Enoka, in Polk county, Wis. There are six of these hysterical wells, ranging in depth from 120 to 160 feet. The one owned by James Collin exhibits most remarkable features. This well is 120 feet deep and was dug 15 years ago. Still Explaining.

When Captain Balsey spoke at the Loyal Legion banquet at Indianapolis recently, the Journal reporter referred to our mayor as a member of the 26th Indiana, when in fact he was a member of the 27th. The captain has received numerous letters from members of both the 26th and 27th after they had read the Journal's report and has written just as many in explanation. Capt. Balsey places blame on the reporter, who is a member of the Loyal Legion, but who did his writing that night after the banquet was too far along.

W. H. Denison and daughter, of Sardinia, came here last evening to visit her cousin, Mrs. Henry Feadler and family.

Grandma Henry, of Jonesville, aged about seventy-five years, is still very low with lung trouble and growing weaker.

Charles L. Thomas arrived Monday at El Paso, Texas, and is feeling much improved. Next week he will leave for Mexico City. Mrs. Thomas is still at San Antonio, Texas.

Mrs. E. M. Young has returned home from a long and pleasant visit to her father, E. D. Snapp, of Tennessee, who accompanied her. He thinks of purchasing a nice farm near here.

Fourteen members of the K. of P. went to Cortland last night and assisted in conferring work in the lodge over there. An enjoyable time was had.

Township Office Term.

The township trustees of the state are taking active steps to defend the constitutionality of the law changing the time for electing trustees and assessors from November, 1898, to November 1900. A committee appointed by their associat on will look after any litigation that may arise. A suit was recently brought at Columbia City by T. R. Marshall, member of the democratic central committee, to test the law. The suit is being pushed with the hope of getting a decision from the supreme court by June 1. In some places candidates for these offices have already been nominated.

St. Patrick's Day.

This is St. Patrick's day, as evinced by the bits of green being worn so conspicuously by so many people. This is done in commemoration of St. Patrick, the apostle and patron saint of Ireland. St. Patrick lived about 1400 years ago. He was one of the first to introduce Christianity in Ireland and before his death had converted almost the whole island to the faith. Legend has it that he rid Ireland of snakes and frogs.

Report at Once.

An effort is being made to get a special train from Columbus to Seymour next Tuesday night to bring back those who desire to go from here to witness the presentation of the "Old Homestead." The special train will depend on the number who desire to go. Any body who will go will please report this same at Cox's Pharmacy or Saltmarsh's office at once.

Telephone Talk.

The Azalia branch of the rural telephone line of Bartholomew county is being extended from Azalia to Jonesville. There is a probability that it will be extended on to Seymour, as there are many patrons of the line that want communication with this city. Such an arrangement would be of mutual advantage.

Band Concert.

The 4th Regiment Band will give a concert at the opera house, April 18, which will be the musical event of the season. The band boys are under good training and are practicing almost every night under the leadership of Prof. Johnson. They will give a first class entertainment and are worthy the support of our citizens. A superior band is of great value to any community. Seymour has the material second to none in the state.

One old veteran made known his wants to the Seymour pension board Wednesday.

THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist, Will Send Free to the Afflicted, Three Little Bottles of His Newly Discovered Remedy to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the SEYMOUR REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 98 Pine Street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the SEYMOUR REPUBLICAN.

OUTINGS IN CALIFORNIA.

The Grandest Country Under the Sun for Outdoor Pastimes.

When one desires an "outing" for health for the enjoyment of the beauty and grandeur of scenery, or for sporting, he can more than satisfy himself in California. During more than eight months of the year open air life is entirely agreeable, and except for seclusion even a tent is unnecessary. No spots there are "postponed on account of the weather," and Mother Nature holds out a welcoming hand to any one who will commune with her.

It is not strange then that "all California takes an outing." The residents of the valleys seek the coast for its ocean breezes and for bathing, boating and fishing that they may enjoy, or they go to the high Sierras for the cool, invigorating mountain air.

The sportsman can also have his fill. If he is a disciple of Izak Walton he will find stream and lake and sea fishing him an ample reward for his skillful efforts. Game is also abundant. The deer, the bear—a grizzly if wanted—and smaller game swarm in the woodlands, and the man who cannot satisfy himself with an outing in California, must be hard indeed to please.

Long limit low rate tickets are sold to California via any of the Southern Pacific Company's three routes: Shasta, Ogden or Sunset, and may be purchased to read in one direction via any of these returning the same or either of the others. For information regarding rates and various routes to California call upon or address any agent of the Southern Pacific Company, or W. G. Neimeyer, Gen'l Western Agent, 238 Clark St., Chicago, Ill.

RAKED UP HIS LATIN.

And Succeeded in Unearthing Terms That Startled the Waiter.

A western lawyer went into the Planters' cafe a few days ago. He had not always lived in the far west and in his college days in the east was well enough acquainted with the French bills of fare of swell New York restaurants. But out in his new home he had forgotten about soup and pot gras and pomme de terre a la duchesse. The fact that he could not read some of the delicacies on the menu exasperated him, and he proceeded to have fun with the waiter.

"Nothing here that I'd care for," said he to the waiter who stood attendant.

"We can serve you anything for dinner, sir," said the waiter, confident that he could please his customer before he got through with him.

"Have you sine qua non?" The waiter stared.

"No-o-o, sir," he answered.

"What about bonmot? Have you any?"

"No, sir."

"Then let me have some nice iguis fatuus. That's good at this time of the year."

"We haven't got it."

"Bring me some tempus fugit then."

"That's out, too, sir."

"You must have a pluribus unum."

This time the waiter looked bright.

"I've heard them speak about it in the kitchen. I'll go and see."

He came back empty handed and dejected.

"We haven't got it," he stammered.

"Strange that I can't get any of these reasonable things. Try once more and find out if they have pro bono publico."

"I'll call Mr. Weaver," said the waiter, almost crazy by this time.

"Perhaps he can tell what you want."

The guest from the west caught him by the coat tails.

"All right," said he, "and in the meantime bring me some roast beef and fried potatoes."

"We have it!" yelled the waiter in his delight at hearing of something that was obtainable, and he flew off to the kitchen and came back with the beef and the potatoes and Landlord Weaver in the wake.

The attorney and the hotel man had a good laugh at the expense of the unfortunate waiter, who confided to the chef in the kitchen that he had struck a man who must have been eating at Delmonico's all his life.—St. Louis Republic.

THE BLOODY BATTLE. Tewkesbury, where a famous battle was fought during the war of the roses, is in Gloucestershire, at the confluence of the Avon and the Severn, and 180 miles from London. The battle was fought on the Bloody Meadow, just outside the modern town, and according to local tradition, one night in every year on the anniversary of the conflict the adherents of the white and red roses meet and fight the battle over again.

Among the Vosges peasant children born at the new moon are supposed to have tongues better hung than others, while those born at the last quarter have better reasoning powers. A daughter born during the waxing moon is always precocious.

A doctor asserts that the growth of children takes place entirely when they are asleep.

Save a Licking. The butcher's boy who had called to deliver a parcel had thoughtlessly left the garden gate open, and the 7-year old ruler of the house called after him: "Here! Come back and shut that gate!"

The butcher's boy stopped, but showed no inclination to obey the command. "I don't have to," he shouted defiantly.

"Yes, you do," insisted the 7-year old. "You come right back and shut it now, or somebody's going to get the worst licking he ever had."

The butcher's boy came running back, full of fight.

"He is, eh?" he said. "Well, who's going to lick 'im, eh?"

"Mother is," calmly remarked the youngster. "If you leave that gate open, I'll be certain to go out into the street. Mother'll see me, and I'll get licked. Shut it tight, please, so I can't get out."

And the butcher's boy did.—Chicago Times-Herald.

ONE OF TWO WAYS

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways.

The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the worth, like the bladder, was created for one purpose, and if it is doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble, or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and a pamphlet, both sent free by mail, upon receipt of three cent stamp to cover cost of postage on the bottle. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its pertinence of this offer.
